

THE UNIVERSITY OF CHICAGO
CHICAGO 37 • ILLINOIS
DEPARTMENT OF MEDICINE

June 9, 1951

Dr. Joshua Lederberg
Associate Professor of Genetics
The University of Wisconsin
Madison 6, Wisconsin

Dear Dr. Lederberg:

Because a very simple routine for recording and mailing cultures to you has been developed, we shall be glad to continue as long as you wish.

I have not been through the reprints you sent me some time ago, but I hope to correct this situation in the very near future.

My reason for writing you this time is really not concerned with either the reprints or the cultures. I have some library work I must do within the next three weeks or so, and because of the multitude of projects I am involved in here, to-gether with the fact that I am on 24 hour call, I should like to get away from the University entirely for three or four weeks. This, of course, requires permission to use a good bio-medical library. Wisconsin appears to be the ideal place, if the library facilities can be obtained.

I would stay at a hotel, of course, but if you can let me know if library arrangements may be made, without inconvenience to you, I shall certainly appreciate it. I can assure you that I shall not trouble you and I shall be glad to pay any necessary library fees.

If this plan will inconvenience you in any way, please do not hesitate to say so.

Sincerely yours,

R. S. Benham
Instructor
